Objective:

Third-year Information Systems student with a passion for software development and enhancing digital experiences. I am eager to develop practical skills in programming and design to deliver innovative tech solutions. Committed to continuous learning and staying updated with the latest technologies in the field.

Projects:

MovieHub

Technologies Used: React.js

- I designed and developed an interactive movie website using (React.js, Node.js, Express.js, MongoDB) with TypeScript support.
- The site offers a platform to view and categorize movies, with an artificial intelligence feature (Chat Bot) to help users discover movies that suit their tastes.
- The site includes features such as: A secure login system, a personal profile page, saving favorite movies, and an interactive user interface using Bootstrap.

Adidas E-commerce Website

Technologies Used: HTML, CSS

- Developed a fully responsive e-commerce website using HTML, CSS, and JavaScript, with interactive product carousels and dynamic product listings. Improved user experience and engagement by 30%, focusing on UI/UX best practices.
- Integrated React.js to enhance UI interactivity, resulting in a smoother and faster shopping experience, reducing page load time by 20%.

EcoSite – Environmental Awareness Website

Technologies Used: HTML, CSS

- Developed an interactive website focused on sustainability, with animations and educational content, increasing user retention by 25%.
- Optimized performance and user engagement, leading to a 25% increase in user retention and a 15% increase in the average session duration.

Education:

- Bachelor Of Commerce (Shorouk Academy).
 - Major : Business Information Systems
 - Gradation Year : (2026)
 - Grade : Good
- Digital Egypt Pioneers Initiative - DEPI · Training
 - Web Developer
 - Developing Front-End Apps with React
 - Developing Back-End Apps with Node.js and Express
 - Containerization basics using Docker
 - Full Stack Cloud Development Capstone Project

Skills:

- Good In using JavaScript Frameworks and Libraries: (React.js)
- Excellent in using Tools (HTML5 , CSS3 and JS)
- Good In using Node.js and Express
- Excellent in using MicrosoftOffice

Version Control:

- **Git**
- **GitHub**

Volunteering:

- **Enactus Egypt**

Team: Project Management
